E-mail-ankitnishad6395@gmail.com

_____

Ankit Nishad has **1.9 years** of experience in IT, specializing in QA Automation and software testing (web, mobile) and Load Testing. Hands-on experience in Java, Selenium, Spring Boot, Jenkins, and CI/CD tools. Additionally, has **6 months** of experience in SEO, WordPress, and **Digital Marketing.**

Professional Summary

- 1.3 years of experience in **QA Automation & Software Testing** (Web, Mobile, and Load Testing).
- Hands-on experience in designing and executing automation scripts using **Selenium WebDriver, Java, TestNG, and JUnit**.
- Strong knowledge of **Core Java (JSE), Spring Boot, TestNG, and Jenkins**, with experience in automation framework implementation.
- Good understanding of different testing methodologies, including **Functional Testing, Usability Testing, Compatibility Testing, and Database Testing**.
- Experience with **Performance Testing** using **JMeter** and automation of technical test cases.
- Skilled in **Defect Reporting & Tracking** using **JIRA**.
- Experienced in **CI/CD pipeline integration** using Jenkins for automated testing workflows.
- Strong in different levels of testing like **Smoke Testing, Sanity Testing, Retesting, and Regression Testing**.

AGILE PROCESS

- Knowledge of Agile methodologies (Scrum & Sprint) and daily client interactions in Agile processes.
- Experience in understanding and implementing Agile Test Strategy in ongoing projects.
- Collaborated with developers and product owners to define Acceptance Criteria and improve test coverage.
- Participated in daily stand-ups, sprint planning, and retrospective meetings to enhance team efficiency.
- Involved in user story analysis and provided inputs on testability and potential risks.
- Worked on defect tracking and management using Jira and Azure DevOps.

MANUAL TESTING

- **More than 1.3+ years of experience** in Software Quality Assurance, including **Manual and Automation Testing** using **Selenium, Jira, and TestNG.**
- **Good knowledge of SDLC and STLC**, including **Agile methodologies (Scrum & Sprint)** with daily client interactions.
- Hands-on experience in Functional, Integration, Regression, Smoke, Sanity, UI, System, and User Acceptance Testing (UAT).
- **Experience in API Testing** using **Postman** for validating backend services.
- **Collaborated with Developers, Business Analysts (BA), and Onsite Teams** for issue resolution and requirement analysis.
- **Performed defect tracking and reporting** using Jira.

- **Strong understanding of Test Plan creation, Test Case Design, Execution, and Review** to ensure high-quality product delivery.
- **Experience in Exploratory and Negative Testing** to identify unexpected behaviors and edge cases.

AUTOMATION TESTING

- **1.3+ years of experience** in **QA Automation Testing** using **Java, Selenium WebDriver, and TestNG**.
- **Developed and maintained automation scripts** for web applications to **reduce manual effort** and **improve test coverage**.
- **Experience in API Testing** using **Postman**, with basic knowledge of **REST API Automation** using **Rest Assured**.
- **Worked with CI/CD pipelines** using **Jenkins** for automated test execution.
- **Wrote XPath and CSS Selectors** to locate web elements dynamically.
- **Integrated automation scripts with Git/GitHub** for version control.
- **Basic experience in mobile testing using Appium** for Android applications.
- Debugging and reporting test failures using Jira.

SQL

- **Basic understanding of SQL queries** for **database validation and testing**.
- **Experience in writing simple queries using SELECT, WHERE, and JOIN operations**.
- **Performed basic database testing** to verify data integrity and consistency.
- **Worked with SQL in conjunction with automation scripts** for validation.

SKILLS SUMMARY

Testing Tools	Selenium WebDriver, Selenium Grid, Appium, TestNG**,** Cucumber, Karate
Performance Tools	JMeter, JConsole
Defect Tracking Tools	Bugzilla, Jira, Azure
Configuration Tool	Git, GitHub
CI/CD Tool	Jenkins, Docker
Languages	Java
Database & SQL	MySQL (Basic), SQL Queries for Data Validation.
API Testing	Postman, Rest Assured
Digital Marketing	WordPress, SEO
Build Tools	Maven
IDE	Eclipse, IntelliJ IDEA, VS Code, Spring Tool Suite.
Frameworks	Spring Boot

PROFESSIONAL SUMMARY

- Working as a (**QA Automation Engineer)** in **[Northcorp software Pvt Ltd.]**, from **Aug 2023 – Present**.

- Hands-on experience in **Manual & Automation Testing** using **Selenium, Java, TestNG, and CI/CD tools like Jenkins**.
- Experience in **SEO, WordPress Development, and basic Digital Marketing** for website optimization and ranking improvements.
- Strong understanding of SDLC, STLC, Agile methodologies (Scrum & Sprint), and defect tracking using Jira.

ACADEMIC QUALIFICATION

- **BCA** from Kanpur Institute of Technology, Kanpur, UP (2021 – 2024).
- **10th & 12th**, UP Board (2019 – 2021)

PERSONAL DETAILS

- **Name:** Ankit Nishad
- **Date of Birth:** 07-01-2004
- **Marital Status/Sex:** Single/Male
- **Nationality:** Indian
- **Spoken Languages:** Hindi, English
- **Permanent Address:** Auraiya, (U.P.), Pin-206122
